

Round 1: Number Sense	FOBISIA Primary Mathematics 2025 BIS Hanoi
You need to make the target number out of the numbers given. You can use any of the four operations and each number as many times as it appears. You do not need to use every number.	

<u>Target number</u>	75	100	25	7	4	7
449	$100 \times 4 = 400$ $75 - 25 = 50$ $400 + 50 = 450$ $7/7 = 1$ $450 - 1 = 449$					

<u>Target number</u>	25	100	7	8	5	8
676						

<u>Target number</u>	100	3	25	1	2	3
----------------------	-----	---	----	---	---	---

421						
<u>Target number</u>	50	25	4	6	3	4
858						

<u>Target number</u>	100	1	50	10	2	4
487						

<u>Target number</u>	100	9	10	75	4	25
-----------------------------	-----	---	----	----	---	----
